

24./25.09.2025

International High-Performance Mining Conference 2025

The Future is now: Capability, Collaboration and Technology
to enable responsible Mine Production

Sponsorship Opportunities

Dear Members of the global Mining Community,

I'm excited to announce the 4th International Conference on High-Performance Mining (HPM), taking place on 24./25.09.2025 at the Super C, located on the premises of RWTH Aachen University.

This year's conference continues our mission to inspire change in the global mining industry and make the mine of the future tangible. Over the course of two days, we will explore benchmark projects that showcase cutting-edge advancements in technology innovation, deployment, process optimization, and responsible mining practices.

The program is designed to spark thought-provoking discussions around current trends in automatization, digitalization, electrification, and the human-centered, climate-smart mine of the future. Beyond technical innovations, sessions will also address the importance and possibilities of an integration of people, technology, and the environment in innovation and transformation processes.

As an international platform for forging new connections and partnerships, the HPM 2025 will offer abundant networking opportunities in our exhibition area and our exclusive evening reception and enable you to connect with global experts and partners from across the mining industry.

It would be my pleasure to welcome you in Aachen in September!

Kind regards,
Univ.-Prof. Dr.-Ing. Elisabeth Clausen
Conference Host
Director, Institute for Advanced Mining Technologies
RWTH Aachen University

Why Attend?

Be a Part of Mining's Global Future!

- **Inspiring Innovations:**

Learn from case studies and success stories, presented by mine operators, technology providers, and researchers.

- **Integrated Approaches:**

Explore solutions that address challenges by aligning people, technology, and environmental considerations.

- **Exceptional Networking Opportunities:**

Strengthen your network during coffee and lunch breaks, the exhibition area, and the evening reception.

With a program designed to foster innovation and collaboration, the HPM 2025 provides a unique platform to showcase your company, products, and services, form new partnerships, and connect with industry and research experts from around the world. Networking opportunities abound in the exhibition area, during coffee and lunch breaks, and at the evening reception.

Over two days, the conference program will offer cutting-edge themes such as automation, digitalization, and electrification within the broader vision of a human-centered, climate-smart mine. Presentations and discussions emphasize an integrated approach, considering people, technology, and the environment, with many sessions featuring collaborative case studies jointly presented by mine operators and suppliers or research partners.

The International Conference on High-Performance Mining is a must-attend event for everyone who is actively engaged in shaping the future of the mining industry towards sustainable, smart, and innovative practices that unite humans, technology, the environment and society in a holistic manner.

Why get involved?

Brand exposure

Increase your company visibility by showcasing your products and solutions to a target audience as a conference sponsor or exhibitor.

Strategic connections

Connect with mining experts and academia as well as resources professionals and industry stakeholders.

Business Opportunities

Generate new leads and business opportunities and generate new partnerships to boost your business in 2025.

Trends & Knowledge

Gain insight in new technologies, industry trends, and latest developments to prepare for the future of mining.

Become a Sponsor of the HPM 2025!

The International Conference on High-Performance Mining is one of Germany's premier mining events, attracting a global audience of mine operators, OEMs, mining suppliers, researchers, and policymakers. It provides a unique platform to address the challenges of modern mining by integrating people, technology, and environmental stewardship.

Sponsoring this event offers unique opportunities to showcase your company, products, and solutions, connect with key decision-makers, and position your company as a leader in sustainable, high-performance mining. You'll expand your reach to a diverse audience of national and international mine operators seeking innovative solutions, technology providers demonstrating cutting-edge advancements, and academics presenting new research, development, and innovation.

Attendees will gain valuable insights through inspiring case studies and presentations on recent developments in mine digitalization, automation, and electrification, while networking opportunities such as coffee breaks, the exhibition area, and an evening reception provide space to forge new partnerships.

Sponsorship opportunities at a glance

- € € € **Gold Sponsor: Evening Reception Sponsor (1x)**
 Mentioned in introduction with special thank you
 15min exclusive presentation at evening reception
 High visibility during evening reception
 Featured in the event app as main sponsor
6000 EUR
- € € **Silver Sponsor: Conference Room Sponsor (2x)**
 Mentioned in introduction with special thank you
 Displayed as sponsor in all conference rooms
 Displayed in event apps and all conference materials
4000 EUR
- € € **Silver Sponsor: Coffee Break Sponsor (2x)**
 Mentioned in introduction with special thank you
 Displayed as sponsor on coffee tables and foyer
 Displayed in event apps and all conference materials
4000 EUR
- € **Bronze Sponsor: Lanyard Sponsor (1x)**
 Mentioned in introduction
 Visible on lanyards and at reception
 Logo and roll up at reception desk
1500 EUR
- € **Conference Exhibition (15x)**
 Exhibition booth at SuperC
 Exhibitor pitch in main program
 1 exhibitor ticket (full delegate pass)

 Featured on introductory slides
1500 EUR

Event Venue – Super C @ RWTH Aachen

The Super C at RWTH Aachen University offers a modern and dynamic venue that reflects the university's commitment to excellence and innovation. As one of Europe's leading technical universities, RWTH Aachen is renowned for its cutting-edge research and strong industry connections, consistently ranking among the top institutions globally for engineering and technology. Its status as a hub for interdisciplinary collaboration and groundbreaking advancements makes it the perfect setting for the International Conference on High-Performance Mining, bringing together global experts to shape the future of industry.
